

“5 Scenes”

with a higher risk of COVID-19 infection

① Social gatherings with drinking alcohol, etc.

- Avoid sitting face-to-face at the table.
- ✗ Do not speak loudly.
- ✗ Do not share the same glass with others.

② Big and long-hour drinking parties

- ✗ Do not drink too much nor go to several bars at one night.
- In a small group and a short time
- Wear a face mask when talking.
- At the restaurant which follows the COVID-19 Preventive Guidelines

③ Conversation without wearing a face mask

<Examples of COVID-19 cluster cases>
Day-time karaoke gathering, outdoor BBQ party

- ⚠ Wear a mask and refrain from talking especially in closed public spaces such as on buses and trains.

④ Sharing a small space with other persons in a shared residence

Shared spaces such as a room in a dormitory and a toilet are with a higher risk of COVID-19 infection.

- Keep a space well-ventilated.
- Enforce physical distancing.

⑤ Break time, etc.

- ⚠ At a break room, a smoking room, a changing room, etc. Do not get relaxed too much during a break, but keep taking COVID-19 precautions at all times.

Beware of those “5 Scenes” to avoid COVID-19 infection !
