

Child Allowance

The goal of *Jidou Teate* or the Child Allowances Program is to contribute to the stability of people's lives together with ensuring the healthy growth and development of each child. Child Allowances are paid to households raising children.

Applications must be filed within 15 days of childbirth or of moving!

In order to receive a Child Allowance, one must apply for it. Generally, after submitting an application the allowance will be paid starting from the following month. However, in cases where the date of childbirth or the scheduled date of moving from your former residence (hereafter referred to as commencement date) is close to the end of the month, you will begin receiving the child allowance from the month you apply. Even if the application is submitted in the month following the commencement date, as long as you apply within 15 days of the commencement date you will receive payment starting that month.

Remember that the allowance is only paid after you submit your application.

If you wait to submit your application, retroactive payments are not available.
