

Hand-drawn diagram of a circular structure, possibly a cross-section of a vessel or a mechanical component. The diagram features concentric circles and radial lines. Key labels and features include:

- Top Label:** $\phi_{1.2} \text{ in } \phi$ with a downward arrow pointing to the top edge.
- Left Label:** 2ϕ with a downward arrow pointing to the left edge.
- Right Label:** $\phi - 7^\circ$ with a downward arrow pointing to the right edge.
- Bottom Label:** $\phi - 7^\circ$ with an upward arrow pointing to the bottom edge.
- Internal Structure:** A central circle with radial lines extending to the outer edge. A small circle is located near the bottom center.
- Bottom Feature:** A small, shaded, cross-hatched area at the bottom center.
- Right Feature:** A small, shaded, cross-hatched area on the right side.
