

Notice regarding the School Financial Assistance Program for Fiscal Year 2026

Kyoto City has established a "School Financial Assistance Program" to support parents and guardians facing financial difficulties, providing aid for school supplies and related expenses when their child enrolls in municipal elementary or junior high schools.
 If you wish to apply for this program, the parent or guardian must submit the application form and related documents directly to the school.

1. Eligibility for School Financial Assistance

(Table 1) Those who fall any of the following categories (1)-(6) are eligible for School Financial Assistance.

Eligibility	Required Documents for Application
Those currently receiving public assistance (1) Receiving educational assistance (2) Not receiving educational assistance (3) Those whose public assistance has been suspended or terminated on or after April 1, 2025 (excluding cases involving changes in household composition).	Please submit only the application form to the school.
(4) Those currently receiving the Child Rearing Allowance (*1)	[For first-time applicants (hereinafter referred to as "new application")] - School Financial Assistance Application Form - My Number Declaration Form (*3) - Documents that can verify the applicant' s My Number (For presentation only *4)
(5) Those who are unable to attend school due to financial reasons (Income requirements apply) (*2) * Those whose public assistance has been suspended or terminated due to a change in household composition will be subject to screening based on income requirements.	[If you were approved for School Financial Assistance in the previous fiscal year and wish to continue approval from July 1 (hereinafter referred to as "continuation application")] - School Financial Assistance Application Form - My Number Declaration Form (if there are household members aged 16 or older who have not declared their My Number)
(6) Those with other special circumstances (e.g., in the event of damage caused by fire, earthquake, flood, etc.)	Please consult with the school.

Those who apply for the reasons outlined in the bold-framed section above are required to provide their My Number; we will verify income and other relevant details to conduct an eligibility review.

*1 Even if the income screening results in a denial, you can still be approved if you are currently receiving the Child Rearing Allowance. Please submit a copy of the Child Rearing Allowance Certificate to the school. Even those whose allowance has not yet been approved should consult with the school and promptly submit the documents required for the application.

*2 Even if you are not approved through the income screening, you may still be eligible if there is a sudden change in your household's financial situation during the fiscal year, such as a significant decrease in income, unemployment, or business closure.

*3 If you do not have a resident record (Jūminhyō) in Kyoto City as of January 1, 2025 (for applications submitted by the end of June), or as of January 1, 2026 (for applications submitted from July onward), or if you are registered in Kyoto City but are taxed by another municipality, income verification via My Number is not possible; therefore, please submit one of the following documents issued by a public authority. (See QA5)

- Taxation certificate (issued by the municipal office of your registered address as of January 1 of the tax year. In the case of Kyoto City, a "Certificate of All Items" must be issued at the ward office, etc., and a fee is required.)
- Special Collection Tax Amount Decision/Change Notice (distributed by the employer around June)
- Resident Tax Payment Notice (sent by the municipality around June for self-employed persons)

*4 Please present a document that verifies your My Number at the time of application. It will be returned immediately after verification.

* Only one applicant (parent/guardian) is required to provide a document that verifies the My Number.

If the total income of all household members (excluding those recognized as dependents and those equivalent to the first-year high school or younger) is equal to or less than the sum of the "Income Eligibility Standard" and the "Additional Items", the household is eligible to receive school financial assistance.

(Table 3) Additional Items

<p>If any of the following conditions apply, ¥230,000 per applicable item or person will be added to the "Income Eligibility Standard" shown in the left table. Ages are calculated as of April 1, 2026.</p> <p>If additional allowances are required for eligibility, the school will request supporting documents separately. Definition of Household

- Even if household members are registered as separate households on the resident record, those who actually live together (including cases such as two-family homes or separate buildings at the same address) are treated as a single household for financial purposes. (See QA4.) Please list all persons living together in the "Household Status" section of the application form.

In cases where a parent or guardian lives separately due to job-related relocation or other circumstances, if there is a marital relationship, that person is also regarded as belonging to the same household and should therefore be included in the "Household Information" section.

- If there is a separated parent who is currently undergoing divorce procedures or negotiations, it may be possible to treat that parent as belonging to a different household, provided that you submit a copy of documents verifying this situation (for example, a court document such as a petition for divorce mediation, or a certificate showing that an attorney has been engaged for divorce proceedings). If this applies to you, please consult with the school. If no supporting documents are available, the separated parent will be regarded as belonging to the same household.

About Income

- To compare your household income with the income eligibility standard, please refer to the "Amount after Employment Income Deduction" on your Withholding Tax Statement, or the "Total Income Amount" on your Final Tax Return.
- For taxable income in 2024, an income adjustment of up to ¥100,000 will be made from the employment and public pension income; however, for taxable income in 2025, due to tax reform which increased the "Employment Income Deduction" by ¥100,000, the income adjustment will be discontinued.

Example of Eligibility Determination (For a four-person household consisting of a father, mother, a third-grade elementary school child, and a 3-year-old kindergarten child, with the mother being pregnant)

Frequently Asked Questions

Q1. I applied for the School Financial Assistance Program before enrollment. Do I need to submit another application after my child's enrollment?
A1. If you submitted your application before enrollment, you do not need to reapply after your child's enrollment. However, if there are any changes in your household situation since you applied before enrollment, please contact the school.

Q2. My older daughter, a 5th-grade elementary school student, is receiving school financial assistance. Do I still need to apply for my younger son, who will be entering the 1st grade?
A2. Yes, it is necessary. One application form is required for each person, so please submit a separate application for your son.

Q3. Why is it necessary to submit my My Number?
A3. Because the My Number system allows verification of income amounts and other details, eliminating the need to submit separate income certificates. Once you have submitted the declaration form, you do not need to resubmit it unless there is an increase in the number of members (aged 16 or over) who require income verification due to changes in household situations.

Q4. My parents (the child's grandparents) or other relatives live with us in a two-family house, but they are registered as a separate household. Do I need to include them as part of our household?
A4. Even if households are registered separately, if the grandparents (or relatives) live in a two-family home or in a separate building on the same property, they are generally considered part of the same household.
However, if the utilities (electricity, gas, and water) are contracted separately, they may be treated as a separate household, so please consult with the school.

Q5. If I need to submit a tax certificate, which fiscal year's certificate is required?
A5. For new applications submitted from April to June, a tax certificate for FY2025 is required; for new applications submitted from July onward and for renewals, a tax certificate for FY2026 is required. Since certificates for 2026 will be issued after June 1, if submission of the certificate will be delayed when applying for renewal, please contact the school and submit only the application form.

Q6. If I apply in June, when would be the certification date?
A6. In principle, it will start from the first day of the application month (June 1). However, if there is a change in household composition or an increase in additional items in the middle of the application month, and the eligibility cannot be confirmed without those conditions, you may be eligible from the "date of meeting the conditions" rather than the first day of the application month.

Q7. I am eligible for the Special Spousal Deduction. How will my income be treated?
A7. The income of a person eligible for the Special Spouse Deduction will be counted as part of the total household income.

Q8. My household income has significantly decreased. Am I eligible to receive School Financial Assistance?
A8. If you submit documents verifying your reduced income, your household may be approved under the temporary measure for sudden changes in household finances. Please consult with the school for further guidance.

Q9. I would prefer that other parents or my child's friends not be informed about our application.
A9. We ensure that all information, including the fact of your application, approval, and any assistance provided, is handled in strict confidence and not disclosed to other.
